Candidates Find What the People Want and Then Scramble to Get It.

(Special to The Times-Dispatch.) CHRISTIANSBURG, VA., July 14.-Joeph E. Willard spoke here to-day according to appointment, and was greeted by an audience that was very gratifying to his friends. He spoke for about an hour and a half and held the close attention of his hearers to the end. His speech was very practical and very force ful, and while he disclaimed in the outset

once he reached eloquent passages. once he reached eloquent passages.

In a very frank manner he gave his record on the "lim crow" law, tracing the bill from its introduction to its final passage, and stated that the amendment he offered was to exempt from the operation of the law a certain electric rull-way, but the amendment was defeated in committee.

He maintained that his amendment was a proper one introduced at the request of prominent clizens of the counties affected, and that he had no apology to offer for his conduct in the matter.

Voted Right. In this connection he asserted that dur-ing the twelve years he had served in the Legislature he did not claim to have to lave voted right in every instance, but have voted right in every instance, but the did claim that every vote he gave on any public question was cast honestly with the lights before him, and free from eny influence from any source whatever. He asked his audience to support him if what he stood for commended itself to them, and then proceeded to discuss the improvement of the educational facilities.

Apt Illustrations.

In discussing these points the speaker punctuated his address with apt illustrations, which went to the hearts of his farmer hearers, and frequently evoked applause. In outlining his platform, he said that he had been accused in a pleasant way by his competitors with steeling theirs. stealing theirs.

He referred to his letter of announcement, which would speak for itself, but in the believe and say that all the candidates were striving to find out what the people wanted and then there was a rush and scramble to get in the wagon first. The reception accorded him was hearty and sincere, and both by his speech and manner of mingling with the recople he impressed himself in a way that has given his friends encouragement and a good measure of confidence.

KILLING JUSTIFFIED.

The coroner's jury here to-day justified Town Sergeant Taylor, of Cape Charles, in the shooting of Wilmore Robb, colored. Robb was shot in the nock while armed with knives and creating a disturbance and terrorizing the passengers and the crew of the steamer Pennsylvania at Cape Charles on Tuesday morning. He came on the boat as she was leaving to come here, and defied arrest till shot by the officer. The evidence showed, in addition to the terror the negro caused at the time, that he had been adjudged insane by a commission of lunacy in this city several months ago, but not being violent he was not sent to the asylum. He had been at work on the Eastern Shore, and was returning to his home here when the murderous insanity attacked him, and he resisted arrest and ran amuck on the deck.

Dogs Kill Turkeys-A Law Needed Against Dogs Hunting Alone.

ed Against Dogs Hunting Alone.

(Special to The Times-Dispatch.)

BOWLING GREEN, VA., July 14.—The continuation of the rains have injured a great deal of wheat. Some have threshed, and some report short. The largest one is a crop of Mr. James T. Richards, who made twenty-eight bushels for one. The supervistors of Caroline county laid the levy at the same as last year, and refused to make an additional levy for schools as requested.

Dogs have destroyed a great many turkeys for some of the people in this neighborhood, Mrs. T. C. Moncure having lost nineteen half-grown ones.

A great many laws are passed for the protection of game, but there is no law that would protect them half as much as one that would make it compulsory for owners of hunting dogs to keep them confined or muzzled during the closed season. If this evil was corrected, the country would abound in game. Why should a dogs be allowed to hunt at any time, and a man who owns the dog and the land be restricted as to when he shall hunt?
